

PetAir Travels
Total Pet Relocation Solutions

Vision

At Pet Air Travels your pet is our primary concern. We strive to ensure the best for you and your pet, providing you with professional services, while having your pets relocated safely, comfortably and most importantly stress free.

Mission

Pet relocation can be a complicated and a daunting task. Rest at ease knowing that a well mapped out plan for your specific needs is what we at Pet Air Travels do best. Taking into consideration every minute detail ensuring your beloved family member is given the care safety it requires on its journey.

Who are we ?

At Pet Air Travels we are a dedicated team who specialize in pet relocation services in Sri Lanka and across the world. Your pet's safety and comfort is our number one priority, our qualified and trained staff ensure this throughout your pet's journey with us.

What we do:

Here at Pet Air Travels we adhere to strict protocols paying close attention to details involved at every stage of the relocation process. Our initial courtesy call to all your pet relocation inquiries are handled individually, followed by a home visited consultation at your convenience. A comprehensive package is provided to you by us that ensures quality coordination of the handling and safety of your pet until its final destination. By air or road, we have the required expertise to handle all aspects of local and overseas travel for your pet with the least amount of fuss and the maximum amount of care and safety.

For pet owners, we offer tailored services, including boarding, quarantining, transporting and documenting. We provide you with a detailed time line that manages the process of relocation, so that you can focus on your own move reassured that the welfare of the animals are in good hands.

At Pet Air Travels we work alongside with leading international relocation companies, allowing us access to current requirements involved in importing and exporting of pets and other live animals across the world.

International Outbound Services

Your pet is a member of your family. We recognize this important fact. We can provide you with the necessary information regarding vaccinations, import or export permits, and health certificate and quarantine requirements for almost every destination in the world.

- Each shipment is treated on an individual basis
- Our consultant will plan your pet's travel arrangement from start to finish, providing a full door to door service - from residence to clinic to quarantine office and back to the residence. This is inclusive of any veterinary services and worming medication if needed.
- As we have in depth knowledge of the unique requirements of different countries, this allows us to give country specific information and also offers the assurance of the safe relocation of individual pets. This includes providing the European Union certificate, Airport Entry Documentation as well as Freight Co-ordination.
- We plan and coordinate with all parties that are involved with the inclusion of veterinary services, quarantine department, export control department, import control of the destination. We can also provide transportation, supply of Pet Travel crates (IATA Certified) and documentation for rabies certificate processing if required.
- We provide pickup and transfer services of your pet from home to the airport for departure. This includes a qualified handler being with the pet at all times, who will also check in on formalities at both the cargo department and at the passenger terminal.

International Inbound Services

Getting all the required documents for pet travel can be a difficult and time-consuming task. We make moving with pets much easier for you and your family pet. Here is how:

- Providing the necessary requirements for importation of pets including quarantine protocols
- Co-ordination and collection of required documents necessary for entry into the country
- Necessary custom clearance at point of importation
- Pick up and drop off if required to residence from airport.

Local Transportation

We offer safe and reliable transportation for your pet. Door to Door service. City to City.

Our Philosophy.

To provide a pet relocation service unequal to any other, at the standard expected by pet owners when they travel themselves, at a reasonable cost.
